

Tennessee Environmental Council

Tennessee Tree Project

Help Us Plant One Million Native Trees in TN

Trees provide thousands of dollars of benefits each year including improved air, water and land. Your business, church, school, scout troop or other organization can partner with us to host tree events in the community in the following way:

- Host a **tree planting event** at your location or in the community. Trees can provide valuable and cost saving improvements to your grounds including providing shade, cutting heating/cooling costs, helping with water drainage, and adding beauty.
- You could also host a **tree giveaway** for your organization or in the community. Your group would give trees away for participants to plant at home, and you could collect donations for the Council and possibly your non-profit organization as well.
- Many organizations elect to host both a tree planting and tree giveaway event!

This program offers a great **fundraising opportunity for non-profit organizations**. We ask for \$3 per tree seedling, and non-profits may keep \$1 per tree.

For more information email us at tec@tectn.org with "TN Tree Project" in the subject line.
