**PURPOSE:**

To approve Resolution 24-XX to purchase a Kubota Skid Steer for the wastewater treatment facility.

**BACKGROUND:**

The City of Spring Hill wastewater treatment facility is in need of a Skid Steer for off-loading chemicals and equipment. Currently the facility has been borrowing other departments' equipment to accomplish daily tasks. With the increased workload seen by all departments, it is becoming increasingly difficult to borrow equipment to offload chemicals. It will also be difficult to complete these tasks once the public works and utility departments are relocated to begin the construction of the new wastewater treatment facility. The equipment is priced through our Sourcewell selection.

**FINANCIAL IMPACT:**

This will be funded from the wastewater budgeted funds 410-52210-59421 at a total cost of \$68,102.28

**STAFF RECOMMENDATION:**

Staff recommends approval of Resolution 24-XX to authorize the purchase of a Kubota Skid Steer from Sourcewell.
