REQUEST: Approval of Resolution 24-132

SUBMITTED BY: Tyler Scroggins, Public Works Director

RE: To authorize a contract A-Z Office Resource for furniture for the courtroom remodel and approve the carryover of unused budgeted funds

ATTACHMENTS: Bid and Contract

PURPOSE:

The purpose of this resolution is to recommend the approval of a resolution to award a contract for the renovation of office furniture for the courtroom at City Hall and to approve the carryover of unused budgeted funds for this project.

BACKGROUND:

There is a clear and convincing need for renovations of the courtroom at City Hall to improve functionality and efficiency. The Board of Mayor and Aldermen previously approved \$170,000.00 for courtroom modifications in Ordinance 23-20 on December 4, 2023. The budgeted expenses for the courtroom renovation were unable to be encumbered prior to the end of the fiscal year. These funds, amounting to \$170,000.00, are not accounted for in the FY25 budget and therefore need to be carried forward.

City staff advertised and accepted proposals for office furniture for the courtroom on May 28, 2024. After evaluating the proposals, City staff recommends awarding the contract to A-Z Office

The contract will be valid for a period of six months, with the anticipation of completing the project sooner.

FINANCIAL IMPACT:

The financial impact of this resolution is the carryover of \$170,000.00 from the previous budget, ensuring that the necessary funds are available for the courtroom renovation project without impacting the FY25 budget. The bid from A-Z Office Resource for the courtroom furniture is \$78,356.00 which come from the \$170,000.00 (110-41800-52611) budgeted in FY24.

STAFF RECOMMENDATION:

Staff recommends approval of this resolution for the timely and efficient renovation of the courtroom at City Hall and budget carryover.

Mod power which is daisy chained and includes power + USB. Please also note, due to not having a full layout of tables, we have included ganging brackets for three sets of three tables, leaving one table on its own.

The mod power is specified to power three runs of three tables pushed together (See attached).

Please note: If the tables were to be powered in a way where one infeed would give power to all 10 tables, they wouldn't be able to have power when the tables are pulled out separate from the line of 10.
