RE: amendment to resolution 25-122

ATTACHMENTS: Resolution

Original with new quote

PURPOSE: The purpose of this report is to seek approval to amend resolution 25-122. This amendment will change the installation of equipment from Pro Logic to TT of Columbia. This change is for the vehicles that were budgeted in the FY 24-25 budget. We were using ProLogic at the time for installation of equipment, therefore we are seeking approval to change vendors for this group of vehicles. Pro Logic is aware we are changing installation. For this years budgeted vehicles, FY 25-26, the department us using TT of Columbia.

BACKGROUND: The Police Department uses Pro Logic to install equipment for new vehicles. TT of Columbia is on state contract to sell police vehicles. They also have a division that does install on police vehicles. We stopped using them years ago due to issues. TT of Columbia is under new management and approached the department about installs. Upon hearing our issues, they have addressed the issues and are committed to their services. The department is willing to switch over to TT of Columbia for installing services. It will support local business and make it more efficient for the department.

Proposal Details: All vehicles equipment will be installed by TT of Columbia.

FINANCIAL IMPACT:

For this amendment, there will be savings of \$4,500.00, due to not paying transport, and the graphics and window tint is less cost than Pro Logic.
