### **STAFF MEMORANDUM**

The City of Spring Hill would like to purchase a rear loader garbage truck to be used for the brush pickup service offered to the residents of the city. Currently, pickup trucks and a knuckleboom truck (when available) are being used by employees for this service. The trucks make 10-12 trips to public works to empty the beds per day. With this garbage truck, it is anticipated to drop the number of trips to 2 per day.

An invitation to bid was advertised with a bid opening on March 26, 2019. The bid was open to new and pre-owned trucks with a listing of minimum qualifications that needed to be met. Two bids were received - Municipal Equipment Inc. being the low bidder with a cost of \$69,950.00 for a pre-owned truck. The only exception to the bid qualifications is the truck bid is a 2008 with only 68,000 miles. City staff has inspected the truck and consent that the truck meets all needs of the city.

Funding for the purchase is in the current fiscal year's budget in the Sanitation fund (210-43200-941), with a budgeted expense of \$80,000.

Staff recommends awarding the invitation to bid to Municipal Equipment Inc. at a cost of \$69,950.00.
